PROFESSIONAL SUMMARY

Dedicated final-year B.E. Computer Science student with hands-on experience in Python, IoT, and Machine Learning. Completed an ML internship applying real-world data preprocessing and model training. Actively learning Django for full-stack web development. Seeking a growth-oriented role to apply and expand technical skills in software development or freelancing.

TECHNICAL SKILLS

Languages	Python, HTML, SQL
Databases	MySQL
Libraries	NumPy, Pandas, Scikit-learn
Tools & Platforms	Raspberry Pi, IoT Cloud Services, Git, GitHub
Currently Learning	Django (Web Framework)

INTERNSHIP

Machine Learning Intern — Oduga Tech Pvt Ltd, Salem | Dec 2025

- Worked on core ML concepts using real-world datasets for hands-on practice
- Performed data preprocessing and data cleaning to prepare structured datasets
- Implemented ML algorithms including Linear Regression for predictive analysis
- Trained and evaluated models using Python libraries: NumPy, Pandas, and Scikit-learn
- Collaborated with team members on ML mini-projects, improving teamwork skills

PROJECTS

Greenhouse Monitoring and Control System using IoT | 2022

- Designed and developed an automated greenhouse system using Raspberry Pi with temperature, humidity, soil-moisture, and light sensors
- Implemented real-time monitoring and automatic control of irrigation and ventilation to maintain optimal plant growth conditions
- Built an IoT dashboard for live data visualization, remote control, and alert notifications using cloud services
- Integrated hardware interfacing, sensor calibration, and IoT communication protocols, improving system efficiency and enabling smart agriculture
